

Abstract:

CLEANING COMPOSITIONS

Improved treatment blocks useful in the treatment of lavatory appliances,
5 particularly toilets are provided. The improved treatment blocks are solid block
compositions which comprise at least one deterative surfactant, a diester constituent, and
one or more further optional constituents, including bleach constituents. The improved
treatment blocks provide improved processing and handling characteristics. Methods of
producing the solid block composition and treatment blocks therefrom, as well as
10 methods of use are also disclosed.
